

CSR STATEMENT 2022-2024

Introduction

We as **Lease a Bike Belgium**, together with our sister companies of Pon Bike Mobility Services want to become a leading example of providing zero-emission mobility solutions for our clients, as well as for society and the planet. Together with our employees and partners we will invest in the sustainability of our core business and support sustainable activities in local society. Various topics are important for BMS, such as climate change, gender equality and social responsibility. We want to contribute to solving these challenges and build a better world for future generations. Our sustainability statement will be updated each two years in which new goals are set. After each year we will report on the sustainable progress we have made.

Vision

By enabling people to use zero-emission mobility services we strive to contribute to the solution for tomorrow's challenges.

Mission

Our mission is – as a CO₂ neutral company from 2022 onwards – to make zero-emission mobility solutions easily accessible for a growing group of people. We strive to contribute to society and our planet by providing or supporting sustainable initiatives around cycling and health.

Our CSR pledge

Provide access to zero mobility solutions for a growing group of people

1. We will donate 100 re-use (e-)bikes on BMS level each year to different NGO's that support improving access to mobility
2. We will support organizations that educate people to learn cycling or related to zero-emission mobility solutions

We take responsibility for our business and supply chain to make it more sustainable

3. We are CO₂-neutral in 2022
 - We reduce our CO₂-footprint per employee by 55% in 2030 in line with the Climate Agreement
 - We compensate our scope 1 & 2 CO₂-emissions as of 2022
4. We will start three projects to improve our supply chain on sustainability on BMS level, with partnerships each two years. We will focus on: reducing packaging materials, increasing the lifespan of battery packs and behavioral change
5. We have an active yearly dialogue with our top 10-stakeholders on sustainability on BMS level
6. We plant trees for the (e-)bikes in our portfolio
7. In 2023 we are certified on sustainability

We invest in our employees

8. Our employees have access to education programs
9. Our employees can participate in a vitality program and make use of a sustainable mobility plan
10. We are committed to an inclusive and diverse culture

We monitor our sustainability efforts and publish our progress on our websites

10. We yearly report on our sustainability progress on our website
11. We are involved in local initiatives to stay on top of market and society developments
